Strange how bad times can bring people closer together. How it brings out the best in people. More than 7,000 people were out to prove that and more when they set out on their May Day Solidarity Walk and Concert on 23 May 2009. It was not a race as there were no loser and everybody was a winner. They don't just talk about upturn the downturn. They walk the talk. And 7,000 people can't be wrong.
